MANAGEMENT CONSULTING SERVICES

What we do?

- The whole of the reconstruction activities conducted according to principle of organizational development that are necessary for adapting to changing conditions and recovering from the entropy impact.
- Along with a strategic analysis, we provide consulting services needed for companies when identifying their present states and goals, and reconstructing accordingly.

Whether it's a quality management system, a marketing strategy or even a completely new governance structure, we work with you to define the best project to fit your needs. Then, we'll support you through the whole process, using our years of experience to make sure the project achieves the best results.

If your company could benefit from a specific type of know-how - the technical knowledge of preparing a family constitution, to introduce a quality management system that will meet ISO standards or any other change management project - then we can support a range of projects. Cratone works with qualified advisors and often last around four to six months.
